

Currently

Oetker Digital

Jan. 2020 – Jan 2026
6 Years

Senior Product Designer

For the past 6 years, I have been working on multiple products and have had the chance to tackle various challenges at Oetker Digital. A few of them are listed below.

Work Experience at Oetker Digital

Oetker Digital partners with brands across the Dr. Oetker Group to shape their digital future, driving transformation through design, technology, and innovation.

Getränke Hoffmann

July 2023 – August 2025
2 Years

Lead Designer – Mobile App for the #1 Beverage Retailer in Germany

- Defined product vision and led end-to-end design of a loyalty app for Germany’s largest beverage retailer, from discovery to launch — 8k users, 37% activation rate, and 5.2 min average session within the first 5 days. Now at 58k+ organic downloads on Android alone — with zero paid social media campaigns launched to date, validating the in-store App Prices mechanic as the primary growth driver.
- Shaped product strategy through 50–100 in-store customer interviews across 5 Berlin locations and remote user research, validating core mechanics and influencing roadmap priorities before a single screen was designed.
- Identified and proposed App Prices mechanic (inspired by Fnac’s member pricing model), turning every shelf label into an app recruitment tool — a strategic initiative that drove downloads without deep discounting.
- Navigated complex dependency environment across 4+ external agencies, making tough prioritisation calls to ship a focused, coherent v1.0.

Lead Designer – AI Recipe & Image Generator

- Identified and defined a new AI opportunity space; as sole designer, owned the full process from market research through workflow design and delivery.
- Designed end-to-end AI workflow and prompting system for recipe and image generation — adopted in 2 active markets, 5+ in pipeline, saving 5–15 hours per recipe vs traditional photoshoot cycles.
- Established scalable quality frameworks for brand-consistent AI output; tool expanded beyond recipes into editorial copywriting and blog content.

Dr Oetker

Sept 2024 – Jan 2025
6 Months

UX/UI Design – Multi Brand Design System

- Defined architecture and contributed to a multi-brand design system (web) unifying 6+ brands across the Dr. Oetker group, enabling a single central team to replace multiple agencies — saving 100k+ euros annually.
- Helped establish a flexible system balancing global consistency with brand-level differentiation, built in close collaboration with frontend developers.

BiteMe.

Oct. 2021 – April 2022
6 Months

Lead Designer – Baking Recipe Platform

- Led product design for a cross-platform ecosystem (iOS, Android, web), managing a team of 3 designers.
- Drove 15% increase in user sign-ups through social login (50% web, 70% mobile adoption) and 12% increase in Google Play installs through user research-led feature development.
- Expanded product ecosystem by launching integrated e-commerce experience, improving retention and monetisation. All initiatives grounded in clear OKRs and A/B testing.

Work Experience at Bonial.com

Bonial.com helps retailers drive in-store sales by turning print brochures into digital, location-based ads that connect nearby shoppers with local deals. Their main markets are Germany (KaufDA) and France (Bonial).

Monetisation

May 2017 – Nov. 2018
1.5 Years

Lead Designer – KaufDA / Bonial

- Set design direction for monetisation across key product surfaces; used rigorous A/B testing to validate every decision — designs directly contributed to multi-million euro B2B upsell opportunities.
- Led and mentored a decentralised design team; raised design standards organisation-wide and established best practices adopted across departments.

Web

Sep. 2016 – May 2017
1.5 Years

Lead Designer – Web Platform

- Established UX/UI best practices that became company-wide benchmarks, driving rapid improvements through a test-and-learn approach.

Mobile

June 2014 – Sep. 2016
2 Years

UX / UI Design – Mobile Platforms

- Led redesign of the Android app aligned with Material Design, improving usability and Play Store ranking; expanded to Apple Watch and Android Wear.

Graphic Design

August 2013 – June 2014
10 Months

In-App Content – Marketing Content – Print Assets

- Designed in-app and marketing content across the US, Germany, and France, building foundational skills in product and brand design.

Previous Experience

Freelance

2009 – 2013
4 Years

Photographer and Graphic Designer

- Delivered visual storytelling, branding, and digital/print assets across diverse international clients.
